# AURA ARENSEN

" Aura has volunteered so much of her time to our community. We are a First Nation community located 9 minutes from St. Peter's. Aura started volunteering her time for your Youth Cooks Program back in July 2020. She worked really well with our youth. She connected really well with our youth. Our youth wanted more of her so I asked her to volunteer for our Ikana'si Youtn Leadership Program. She brought so much to the youth. She showed them how to sew masks so we could give them out to our community and neighbouring community (St. Peter's) every week from September to December, four hours a week."
