|--------------------------------------|--|
| <input type="checkbox"/> Residential | <input type="checkbox"/> Institutional |
| <input type="checkbox"/> Commercial | <input type="checkbox"/> Other |
| <input type="checkbox"/> Industrial | |

Give a brief description of the type of building (ex. House, School, Store...):

Sewer Service Conditions:

The Owner agrees to comply with all the Municipal By-Laws and Policies respecting the access to Municipal sewers. Application for a sewer connection up to 4" diameter shall be accompanied by a fee of \$400 to cover installation and reinstatement costs by the Municipality. Services greater than 4" diameter are subject to additional connection fees.

Sewer service charges are levied in accordance with Municipal By-Law 52, the Sewer Service Charge By-Law. The By-Law is available on the Municipal website at <https://www.richmondcounty.ca/municipal-by-laws.html>. Please note that properties with more than one water account will have all associated sewer charges levied on a single sewer bill levied against the property / assessment account.

Water Service Conditions:

The Owner agrees to pay for water at the rates and times specified in the Schedule of Rates and to comply with the Schedule of Rules and Regulations approved by the Nova Scotia Utility and Review Board respecting the supply of water from the Richmond County Water Utility. The Schedule of Rates is available on the Municipal website at <https://www.richmondcounty.ca/municipal-water.html>.

A water service connection fee of \$2,000 for a ¾" diameter service pipe is to be submitted with application, if water service is being requested. For services larger than ¾", the whole cost shall be borne by the customer. New connections are subject to a \$50 account creation fee; the fee shall be \$100 when a meter is installed. The account creation fee and meter installation fee will be included on the first water bill.

General Conditions:

Signature of the Owner below indicates that the Owner has read and agrees to comply with all of the above noted conditions for water and sewer services. Connections to central water and sewer systems will not be carried out until this application is approved by the Municipal Engineer for the Municipality of Richmond. The Municipality reserves the right to deny any request for a water/sewer connection where, in the opinion of the Municipal Engineer, the existing Municipal water or sewerage system does not allow reasonable access or has insufficient capacity to receive the connection. The private portion of a water or sewer service lateral must not be covered until it has been inspected and approved by the Municipal Engineer or his/her designate.
